Bitten by a Mad-dog—Child Burned to Death—Tried to Shoot—Double Hanging—Various Newy Items.

Doing Business With a Rosh.

Nine men were convicted last week in the Circuit Court at Elkhorn on various charges and were given terms ranging from one month in jail to three years in the penitentiary. There was not a single hung jury during the week.

Required a Regulation.

When officer Cravens went to Clarksville for Joe Johnson, col., who is wanted here on a charge of grand larceny, the prisoner finally refused to return to Kentucky without a regulation. When the two persons are secured Johnson will be brought back to stand his trial. He is charged with the theft of an overcoat belonging to Mr. Sam Frankel.

Widower and Widow Wed.

Mr. John W. Cowan, a well-known Fruit Hill farmer, and widower, and Mrs. Sarah F. Clark, who had been a widow for several years, were married at 6 o'clock p.m. Wednesday. Rev. John O. Smithson officiating. The marriage took place in the presence of a few friends of the couple.

Written by a Mad Dog.

Clardy, Dec. 12.—Mr. L. T. Moreland's two little daughters aged 8 and 3 years, were bitten by a dog this week, supposed to be mad. The dog was confined and died last Wednesday. Mr. Moreland took his children to Paducah last Thursday to have a mad stone applied, but had not returned.

Convinced as Weyler was, that notwithstanding his enormous army, he could do nothing against our gallant leader, who has so repeatedly defeated the Spanish generals in Pinar del Rio, he planned to make the best of the secret relation between Dr. Zertucha and the Marquis De Alumeda, he planned with the latter his scheme. Weyler took the field, and in his absence Alumeda proposed Zertucha a conference at the head of a column of troops to meet at a certain point in the Province of Havana, with a view of arranging plans for the cessation of hostilities, on the basis of Cuban's independence and a monetary indemnity to Spain, with moreover, certain advantages that would be derived to the Spanish commerce and Spanish capital have invested.

To carry out the plan, would be given to the detachments of troops stationed at the trocha in the section between Mariel and Guanajay to allow Maceo, with his staff to pass the country. "These continuations took time to mature, and to give them the semblance of truth, Alumeda feigned that before acting he must make known his plan to Weyler for his previous approval; and this explains the sudden arrival of Weyler at Havana and his presence there on Dec. 10. Having arranged the conditions and placed a meeting, Alumeda crossed the trocha over the road to Guanajay without being molested by the forts, but once arrived at the place he was met by Weyler and his party, who were greeted by a tremendous volley from the forces under Gen. Maceo. Zertucha is alive because he was aware of the scheme, remained in the rear. The Spaniards remained in the rear, but are about on leaping ignorance, to blot out the vengeances of the crime."

MACEO MURDERED.

BETRAYED BY HIS SURGEON HE IS LED INTO AN AMBUSH—
On His Way, *face*—Assassinated and Dragged By the Tail of a Horse.

Jacksonville, Fla., Dec. 12.—J. A. Huau, the agent of the Cuban junta here, has received a letter from Havana which confirms the death of Antonio Maceo, but also indicates that the Cuban leader was the victim of a treacherous plot formed by his own physician, Dr. Zertucha, and the Marquis De Alumeda, who acts as Captain General of Havana when Weyler is absent on the field.

The letter was dated Dec. 9, and the following extract gave the details:

"We are at present under the sad impression caused by the death of our brave General, Antonio Maceo, murdered together with the greater part of his staff, by the Spaniards acting under the assassin Maj. Cirujeda, and as instrumental in this horrible crime, Maj. Zertucha, second surgeon, Dr. Maceo.

"Convinced as Weyler was, that notwithstanding his enormous army, he could do nothing against our gallant leader, who has so repeatedly defeated the Spanish generals in Pinar del Rio, he planned to make the best of the secret relation between Dr. Zertucha and the Marquis De Alumeda, he planned with the latter his scheme. Weyler took the field, and in his absence Alumeda proposed Zertucha a conference at the head of a column of troops to meet at a certain point in the Province of Havana, with a view of arranging plans for the cessation of hostilities, on the basis of Cuban's independence and a monetary indemnity to Spain, with moreover, certain advantages that would be derived to the Spanish commerce and Spanish capital have invested.

To carry out the plan, would be given to the detachments of troops stationed at the trocha in the section between Mariel and Guanajay to allow Maceo, with his staff to pass the country. "These continuations took time to mature, and to give them the semblance of truth, Alumeda feigned that before acting he must make known his plan to Weyler for his previous approval; and this explains the sudden arrival of Weyler at Havana and his presence there on Dec. 10. Having arranged the conditions and placed a meeting, Alumeda crossed the trocha over the road to Guanajay without being molested by the forts, but once arrived at the place he was met by Weyler and his party, who were greeted by a tremendous volley from the forces under Gen. Maceo. Zertucha is alive because he was aware of the scheme, remained in the rear. The Spaniards remained in the rear, but are about on leaping ignorance, to blot out the vengeances of the crime."

Fight for Cuba.

Philadelphia, Dec. 12.—A regiment of 1,500 men to fight in Cuba is being raised in the cities of Baltimore, New York, Boston, Washington and Philadelphia and another regiment has already been raised in the states of Virginia and Tennessee.

Fayetteville, Ark., Dec. 13.—A company of twenty young men in this city have organized and within a few days will start for Cuba to join the rebel army.

Dallas, Tex., Dec. 13.—There was a great meeting at the City Hall this afternoon in the interest of the island of Cuba. Two thousand representative men and a hundred women were present. Andrew Jackson Houston, a son of the hero of San Jacinto, presided, and made a characteristic speech.

Tampa, Fla., Dec. 13.—Sixty-seven men left here this morning for the regular Florida Central Peninsular train in two private coaches for a point near Jacksonville, where they expected to embark to night for Cuba. They formed one of three combined expeditions now enroute to Cuba. Gen. Carlos Roloff has sailed from some northern port in the Bermudas.

Notice to Business Men.

Business men should leave word at their homes if they want their houses numbered. It is impossible for census takers when assigning numbers to come down town and hunt up the business man to find if he wants a number or not. This trouble is being caused the census takers to do this and the work of numbering is being delayed. BE SURE AND LEAVE WORD AT YOUR HOUSE.

going on.**THE ASSASSINATION OF MACEO.**

There seemed to be no longer a reasonable doubt of the death of Gen. Antonio Maceo, the second in command of the Cuban officers. He was lured into a Spanish ambush under a flag of truce and several members of his escort, consisting of 32 staff officers, were killed with the single exception of Dr. Maximo Zertucha, his second surgeon, who betrayed his general and arranged with thequis Almudena for the cowardly assassination. A meeting was arranged through Zertucha, at the request of the Marquis and Maceo was invited to a conference and led into an ambuscade. Maj. Cirujido having been assigned the bloody duty of violating the most sacred principle of civilized warfare—the flag of truce—and so a man lied to tell the tale except Zertucha who was not even mentioned, but sent to Havana to spread the news and furnish the proof that Maceo had been "killed in battle." Cirujido, the brutal monster who conducted the execution, himself stated that Maceo's body was stripped of clothing and tied to the tail of a horse and dragged for two or three miles and then "abandoned by the roadside." It is cabled from Madrid that the Queen Regent of Spain on Saturday gave audience to the wife of Maj. Cirujido and promised to heap honors upon the assassin and educate his son at public expense. Gen. Weyler upon his return to Havana was received with cheers and made a speech expressing his delight at the death of the brave soldier and murdered patriot. Nothing else, however, could have been expected of this monster, who butchered the brave prisoners of war Antonio Coloma with a pardon from the Queen in his pocket. With such methods of warfare prevailing within 80 miles of our shores, if becomes the imperative duty of the United States government to recognize the belligerency of the Cubans and put a stop to the brutal atrocities that rival those of the Turks in Armenia. It is high time for us to do for struggling Cuba what France did for the rebel colonies in the last century. Upon this question the people of the United States are practically united. Resolutions of sympathy have passed both branches of Congress, but the monarch- loving occupant of the White House still talks about "non-intervention." The American people, regardless of party, can only wait with impatience and live in the hope that the new President will take action upon this question as soon as he takes the oath of office.

In the meantime, the struggle for Cuban independence will go on until the gallant patriots gain their liberty. Maco, Mari, Za, Jose, Maceo, Cobmet, all brave leaders, have fallen but Gomez, Garcia, Riviera, Rabl and other intrepid fighters still remain and the war will go on. With 40,000 soldiers in the field the Cubans are stronger than ever before and although Weyler has 200,000 troops on the island, he cannot conquer the brave patriots who are fighting for their homes.

The death of Maceo is a severe blow and a year ago might have been fatal to the cause, but a year's fighting has developed other brave officers who can carry on the work for which he laid down his life. Gen. Maceo was the last of his family. His father and nine sons have died for Cuba Libre. Gen. Maceo was a product of the war of 1868-73. He was born in 1848 and rose to the rank of general in the ten years' struggle. When the Cubans were forced to abandon the struggle, he came to the United States and secured employment as a hostler at the military school at West Point, where he borrowed books from the cadets and studied the science of war. He assisted in bringing about the present revolution and has been constantly in the field since the beginning of hostilities two years ago. His brother Jose was killed in 1873.

Chronic Constipation.

The rational treatment for constipation consists of administering the medicine that will stimulate and restore the Liver to its normal condition without debilitating the system by strong cathartics.

Washington, D. C., Dec. 11.—The silver Senator who has been waiting developments in the deal between Presidents Cleveland as the leader of the gold Democratic and President-elect McKinley have a difference.

It is affirmed with much accuracy of detail from Senatorial sources that all the recess appointments and appointments to be made by Mr. Cleveland before March 4, where the ostensible object is to make places for gold bullion, will be rejected.

Every nomination not based on the best grounds will be rejected and this applies with especial force to the recess appointments made since the election.

Charlie McDaniel's Latest Spree.
Chas. C. McDaniel who was arrested Wednesday in Hopkinsville, on a charge of housebreaking, was a clerk in the internal revenue office in Owensboro while John Feland was collector. He is the most notorious member in the office but was admitted at times to hard drinking. This arrest in Hopkinsville is the result or one of his sprees, he having broken into the house of his next door neighbor while drinking, greatly frightening and angering the family. It is not believed that he committed the act with any felonious intent.—Owensboro Messenger.

Twice-A-Week Courier-Journal.
Beginning the first of the new year the Weekly Courier-Journal of Louisville, Ky., will be succeeded by the Twice-a-week Courier Journal. It will be published Wednesday and Saturday mornings. The paper will be six pages, or twelve pages a week, as at present, or ten pages weekly, as at present, an increase of 832 columns of news during the year. The Weekly Courier-Journal will be discontinued exclusively to news and politics, while the Saturday issue will be strictly a family paper—filled with stories, miscellany, pictures, poetry, sketches, etc. The price of the paper will not be changed, and the battle for pure journalism and the principles of the paper will be continued successfully in the future as in the past. In spite of the expense involved in the improvements noted, the price of the Twice-a-week Courier Journal will remain the same, one dollar a year, with liberal inducements to agents and subscribers who send in new papers. A feature during the year will be the editorials of Mr. Henry Watterson on political and other topics of the day.

Mozart Symphony Club.

The great success of the Mozart Symphony Club during the past six months, the unanimous praise which it has received from the public and the New York and Boston bestow upon it for its artistic work, and the repeated requests for return engagements, assures Messrs. Blodock & Stokey, that they offer an organization of truly extraordinary excellence, adapted for lecture, course, entertainments, and competitions. The Mozart Symphony Club consists of an excellent string quartette, and on account of the fact that they are the only musical organization who play such obsolete instruments as the Violin d'Amour (16 strings) and the Double Bass (16 strings), and the Roman Trumpet (15 feet in length) which was played during the reign of Julius Caesar. Messrs. Blodock & Stokey have again secured the services of Miss Mary Louise Guimara, prima donna, and other vocal artists, with whom they achieved such wonderful success last season. In order to make their concerts both instructive and entertaining, the programmes of the Club will contain works which are calculated to please the general public as well as the most fastidious of listeners.

THE ST. LOUIS WEEKLY**POST-DISPATCH**

Only 50 CENTS a Year.

The Great Free Silver Paper.

The Post-Dispatch is the only metropolitan paper that championed the free silver cause in advance of the nominating conventions. It stands pat for free silver, for western men and measures, for the people against the political bosses, Plutocrats, Com-Bines, trusts and corporation oppression.

You will find the Weekly Post-Dispatch indispensable during the year 1897. The year 1897 is going to be brimful of interest. The independent, with its increased upon a gold platform, means legislation of a kind that will vitally interest every newspaper reader in the country, and especially in the South and West. Special attention will be paid in the Weekly Post-Dispatch to the subject of the gold standard, and it will be discussed editorially from the point of view of the West and South as contrasted with that of Wall street.

The campaign for free silver will go on in 1897, and nothing can do so much to help along the cause than the election of a newspaper like the Weekly Post-Dispatch. This is shown in the fact that in Missouri and in every other locality where the weekly Post-Dispatch has a large circulation, the gains of Democracy over the silver were of a sweeping character.

The Post-Dispatch deserves the support of all Free Silver Democrats because of the great fight it made in the recent campaign for Democratic principles and the Democratic ticket. Help the Free Silver men even where they should rally. Support by sending in their subscription and inducing others to subscribe.

FROM THE POPULAR BLUFF, (Mo.) CITIZEN.

The Post-Dispatch did more in the merchant campaign for the cause of the merchant, mechanic, farmer and laboring man than any other paper in the State. It will always be a valuable paper to this class, and will be repeated a hundred times for the good done. It was through the Post that many frauds were exposed which would otherwise have gone unnoticed by the American press, and it stands without a peer in America to-day. The Post-Dispatch is the champion of the people.

In addition to all the news and the cream of public discussion, the Weekly Post-Dispatch contains the best editorials in the Daily Post-Dispatch. Short Stories, a helpful Woman's Department, Gossip About Men and Women who attain Prominence, Political Cartoons and Plenty of Fun and Humor.

Subscription price, by mail, 50 cents a year. Clubs of ten, to one address, \$4 per year. Remit by Postal or Express Money Order or for smaller amounts, send cash. Send two or one cent postage stamps—never stamps of larger denominations. Don't send checks on local banks.

Eug. Robt. L. Allard, a member of the Order of the Sons of the American Revolution, at 20 years of age was honored with a policy in life in that order though he had not yet reached the age of 21. The old gentleman, having lived out that goodly part of time, was a poor invalid and had the pleasure of receiving the full amount of the risk, which, of course, comes in time to be useful to him in his declining days. He has attained his 75th birthday and is now a feeble, heavy, and but for a lame hand would be a general on the hard-ship line as far as 200 lbs. old buck on Mud Fork Telephone.

The directory makers inform us that enough territory has been canvassed to insure the success of the plan of numbering, and that a large majority of the houses will be numbered voluntarily. This being done, the board of Council will probably pass an ordinance requiring all to have their numbers painted on the front door, and giving the directory makers while they can get a free copy of this valuable book for each house numbered.

It is said that Gov. elect Leedy, of Kansas, will recommend that the thimble-sized counties in Western Kansas be consolidated. An attempt will be made to combine forty of these counties into eight.

NOTICE.

Dr. Gaines desire most earnestly and sincerely to thank the good people of Hopkinsville and surrounding country, for the very generous patronage which they have given him in the past, and to say, that advancing in years, he finds it difficult to keep them, and wishes that his part of the work is drawing to a close. Therefore, in the future, he will, in some measure, circumscribe his labors by confining his practice to the limits of town (and near vicinity) and to office practice. This change will begin from January 1, 1897. Respectfully,

R. W. GAINES.
